Drawing Inks on Arnhem Paper

22" x 30"

Flowers of the Cosmos explores the intersection of reality and imagination, presenting an otherworldly botanical scene teeming with life and energy. Inspired by the vibrancy of nature and the mysteries of the universe, this piece blurs the lines between the familiar and the alien. The glowing, spherical blooms evoke celestial bodies, while the intertwining foliage reflects the interconnectedness of life. The use of rich, complementary colors creates a sense of depth and movement, drawing the viewer into this surreal ecosystem. *Flowers of the Cosmos* invites contemplation on the beauty and resilience of nature, both on Earth and beyond.
