

Reverie

Katie Li

Digital art/illustration

10 x 8 inches

Just as painters of *l'impressionnisme* aimed to capture fleeting atmospheres and changes in light, I aim to capture fleeting moments of my own state of mind. In a dreamlike state I ponder about my passions, experiences, and hopes. Instead of capturing the ever so changing earthly landscapes, I capture the inner landscapes of my mind, with each rabbit circling above my head representing a characteristic of myself and my aspirations that make me who I am in this present moment.
